Mark Esparza, Partner and Chief of Operations pictured above, shares his experience with BWP's ONEBurbank fiber service.

When we relocated our offices, we were seeking more square footage but we were also on the hunt for a more robust, faster, and more dependable internet provider. Having maxed out our current cable-based service, we found ONEBurbank's fiber offerings through BWP's website and set up a consultation and on-site evaluation.

With ONEBurbank already servicing our studio clients in town as well as other entertainment advertising vendors and agencies, ONEBurbank's proven experience in fiber-optic service far surpassed any other enterprise-level offerings we considered. We were also glad to see that our dollars would go to the community and support the city in which we operate.

We are more than happy with both the bandwidth and the customer service. Our business model pushes huge amounts of data, both as uploads and downloads, often against a deadline. Time and again, ONEBurbank allows us to meet client goals while remaining competitive in the entertainment advertising space. Service has been stable, dependable, and, with a quick phone call to BWP, scalable. Being a ONEBurbank customer allows our team to focus on creative solutions rather than upload times. And we have a renewed confidence in servicing our clients while delivering more timesensitive and data-heavy projects.

We welcome another satisfied ONEBurbank customer! For more information on The M Factor, check out themfactorcreative.com.
