

NOTICE OF PUBLIC HEARING

TO CONSIDER INCREASES TO RATES AND CHARGES FOR WATER, SEWER, AND REFUSE SERVICES

This notice is to inform you that a public hearing will be held on **May 17, 2022**, at **6:00 p.m.** in the City of Burbank Council Chambers, 275 E. Olive Ave., Burbank, California 91502, at which the Burbank City Council will consider proposed increases for certain fees and charges for **Fiscal Year 2022-2023**. If approved, certain fees and charges for **water, sewer, and refuse services** will be increased **effective July 1, 2022**. Any interested person may appear and be heard on any matter relating to the proposed increases to **water, sewer, and refuse fees and charges**. Any property owner or property tenant that is directly responsible for payment of water and refuse fees and charges may submit a written protest against the proposed rate increases. Written protests will be considered if submitted by the close of the public hearing on **May 17, 2022**, to the City Clerk located at Burbank City Hall, 275 E. Olive Ave., Burbank, California 91502. The City Council cannot adopt the proposed rate increases if a majority protest exists.

The increases for water services are necessary to recover the increased costs of purchased water, operations and maintenance, conservation, and capital improvement programs. The proposed increases in sewer charges are due to increased charges from the City of Los Angeles for sewage treatment services, capital improvement projects, and labor, chemical, and electrical costs to operate the Burbank Water Reclamation Plant (BWRP). The refuse collection fee increases are needed to meet rising operational costs, particularly those associated with new state mandates, and to continue providing comprehensive refuse services that include household trash disposal, green waste recycling, recyclable collection and processing, and bulky item pick-ups. For the typical customer, the proposed fees and charges reflect monthly increases of approximately **\$6.46** for water services (1" meter billed for 12,000 gallons), **\$0.51** for single family residential sewer services, and **\$1.34** for refuse services (64 gallon container).

For more information call (818) 238-3700. The fees and charges adopted by the Burbank City Council may be lower but will not exceed the proposed fees and charges listed below.
