### **BWP STAFF REPORT**

**DATE:** March 6, 2025

**TO:** Burbank Water and Power Board

FROM: Mandip Kaur Samra, General Manager, Burbank Water and Power 4 W Sw

**SUBJECT:** Proposed Fiscal Year 2025-26 and FY 2026-27 Budgets

### RECOMMENDATION

Staff requests that the Burbank Water and Power (BWP) Board recommend approval of the utility's proposed Fiscal Year (FY) 2025-26 and FY 2026-27 budgets as presented at the March 6, 2025 BWP Board meeting to the Burbank City Council (Council) for the Electric Fund, the Water Fund, the Magnolia Power Project (MPP) Operating Fund, the Tieton Operating Fund, the Street Lighting Fund, and the Communications Fund.

### **BACKGROUND**

At the direction of Council, staff prepared a bi-annual budget for FY 2023-24 and FY 2024-25 for the first time. Staff is continuing this direction for the next bi-annual budget cycle for FY 2025-26 and FY 2026-27.

#### DISCUSSION

BWP's top priority and purpose remains supplying sustainable, affordable, and reliable electricity and water to Burbank's residents and businesses. Staff foresees many issues and challenges to this goal in FY 2025-26 and FY 2026-27, including inflation and supply chain issues, sourcing and delivering renewable energy, meeting regulatory compliance, modernizing aging infrastructure, continued conservation, and a possible drought. Additionally, the budgets must address significant revenue under collections in both the Electric and Water Funds from prior years that resulted in reserves being depleted by 62% (from ~\$80M to ~\$30M) in the Electric Fund from June 2018 through June 2023 and 42% in the Water Fund from June 2018 through June 2021. While the prior two years of rate increases partially helped replenish these depleted reserves and get the funds to recommended reserve levels, there are still challenges with achieving and maintaining

adequate reserve levels in the foreseeable future. At BWP, we are able to partially mitigate rate impacts by hedging gas and energy, our economic energy dispatch strategy, and revenues from wholesale, ONEBurbank, aid-in-construction, and grant funding. Additionally, BWP staff has risen to the challenge by finding cost savings and avoidance opportunities of approximately \$20 million in the last 12 months. Some of those efforts include grants awarded, wholesale revenues, and refunding of bonds resulting in net present value savings.

#### Electric Fund

In the Electric Fund, Burbank is facing the growing challenge of balancing the need to reduce our impact on the climate, our commitment to keeping rates affordable for BWP customers, government mandates that regulate how we approach energy consumption, and the complicated nature of securing and distributing new sources of renewable energy. The future of BWP's power will become more complex and costly as we transition to renewable energy in a way that is reliable and affordable in the long term. The budget drivers include revenue under collections from prior periods, , lower sales due to customer conservation response, an increase in power supply and transmission costs, costs associated with repowering IPP with natural gas, investments in future sustainability, inflation-driven higher operating and maintenance expenses, increase in capital improvements, and continued supply chain issues.

#### Water Fund

In the Water Fund, Burbank faces challenges such as adapting to climate change, modernizing Burbank's water infrastructure, and our commitment to keeping rates affordable for BWP customers. Staff is working hard to improve the water infrastructure to make the system more sustainable, reliable, and cost-effective in the long-term. BWP must invest in our infrastructure to protect our water supply and continue delivering the reliability Burbank depends on. The budget drivers include revenue under collections from prior periods, lower sales due to customer conservation response, higher water supply costs, increased capital improvements, capital financing, and inflation-driven higher operating and maintenance expenses.

#### Electric and Water Rate Increases

The Burbank City Charter requires that the funds have rates that achieve full cost recovery and staff is proposing to ramp in rate increases over a five-year period (FY 2025-26 through FY 2029-30) to achieve this requirement. For the Electric Fund, staff is proposing an immediate two-year rate increase; 9.9% rate increase to go into effect on January 1, 2026, a 9.9% rate increase to go into effect on January 1, 2027, the use of proceeds from the 2023 bond issuance for capital improvements, and the use of cash reserves for operating expenses and capital improvements.

For the Water Fund, staff is proposing a 14% rate increase to go into effect on January 1, 2026, a 14% rate increase to go into effect on January 1, 2027, and the use of cash reserves for operating expenses and capital improvements. The 2021 bond proceeds were fully depleted during FY 2024-25, and staff will be looking for both grant opportunities as well as funding from the State's 2024 Climate Bond, Proposition 4, that will release \$2.7 billion in funding opportunities for local agencies for capital infrastructure projects related dam infrastructure, safe drinking water and drought resilience, wildfire and forest resilience, and clean energy. Staff will also look at the possibility of another bond issuance in FY 2026-27 and available federal and state loan programs for water infrastructure projects. Additionally, staff will share a 5-year rate plan that balances affordability, reliability, and sustainability that achieves cost recovery by increasing rates over time. The electric and water rate plan strategy will be presented to BWP's Board in a separate report from the budget discussion during the March 6, 2025, BWP Board meeting.

The budget is designed to continue balancing the requirements of providing safe and reliable electric and water services to the residents and businesses of Burbank while meeting the City's vision to do so in responsible and sustainable ways with affordable and competitive rates. The electric and water services provided by BWP are amongst the safest and most reliable in the nation, and BWP's rates are amongst the most competitive in Southern California.

The proposed Electric Fund budget is \$419,388 for FY 2025-26 and \$346,125 in FY 2026-27. The proposed Water Fund budget is \$61,586 in FY 2025-26 and \$66,179 in FY 2026-27. The proposed MPP Operating Fund budget is \$30,063 in FY 2025-26 and \$32,013 in FY 2026-27. The proposed Tieton Operating Fund budget is \$2,206 in FY 2025-26 and \$2,290 in FY 2026-27. The proposed Street Lighting Fund budget is \$5,170 in FY 2025-26 and \$4,033 in FY 2026-27. The proposed Communications Fund budget is \$7,910 in FY 2025-26 and \$5,649 in FY 2026-27. These proposed budgets reflect staff's dedication to operating a lean, efficient, and accountable utility. This was achieved through several months of BWP staff prioritizing projects and identifying operational efficiencies. Many hard decisions were made to develop this budget while prioritizing the board's strategic goals and maintaining our customers' high expectations and satisfaction. The budget may be subject to additional changes. If any material changes are made, they will be presented at the scheduled April 3, 2025, BWP Board meeting.

### **CONCLUSION**

Staff is requesting that the BWP Board recommend approval of the utility's proposed FY 2025-26 and FY 2026-27 budgets to Council for the Electric Fund, the Water Fund, the MPP Operating Fund, the Tieton Operating Fund, the Street Lighting Fund, and the Communications Fund.

53 Notes:

54 1). Minimum and recommended Days Cash On Hand are from the 2023 Financial reserves policy

55 2). Minimum Debt Service Coverage (DSC) as required by the electric bond indenture. The recommended Debt Service Coverage is a median for an Aa rated electric utility by Moody's rating published in 2020.

56 3). There is no minimum requirement. The recommended level is necessary to maintain the electric fund AA- rating by S&P published in 2020.

57 4). There is no minimum requirement. The recommended level is necessary to maintain the electric fund AA- rating by S&P published in 2020.

58 5). There is no minimum requirement. The recommended level is necessary to maintain the electric fund AA- rating by S&P published in 2020.

#### MEMORANDUM

DATE:

December 12, 2024

TO:

Joseph Lillio, Chief Financial Officer Joseph Author

FROM:

Apollo Cervania, Acting Fleet Manager

SUBJECT: Budget Summary for FY 2025-26 and FY 2026-27 Master Fleet Plan

The Master Fleet Plan is a 10-year forecast for vehicle and equipment replacement. In FY 2025-26 and FY 2026-27, seventy (70) vehicles and large pieces of equipment were due for replacement review, with a potential replacement cost of approximately \$11,975,000 for the two budget years.

These seventy (70) vehicles and equipment have been evaluated for safety, reliability, utilization, and overall condition. The affected section managers have reviewed and agreed to the following recommendations:

- A total of thirty-six (36) vehicles and pieces of equipment had their lives extended in the Master Fleet Plan, postponing capital spending of approximately \$6,680,000.
- Sixteen (16) light-duty vehicles and two (2) heavy-duty trucks and equipment are now planned for replacement in FY 2025-26 at an approximate cost of \$1,795,000.
- Eleven (11) light-duty vehicles and five (5) heavy-duty trucks and equipment are planned for replacement in FY 2026-27 at an approximate cost of \$3,500,000.

#### Vehicles and Equipment:

- Four (4) light-duty cars and trucks and three (3) heavy-duty trucks and equipment budgeted for the Water Department for \$1,625,000.
- Fifteen (15) light-duty cars and light to medium pickup trucks, two (2) heavy-duty equipment trucks, and two (2) wire puller trailers budgeted for Electric Distribution with a total of \$2,970,000.
- One (1) full electric pickup truck for Administration (Safety) for \$100,000.

- One (1) material handler equipment for the Fleet Pool (Finance) for \$250,000.
- Two (2) small hybrid trucks and one (1) car are budgeted for *Customer Service* for \$190,000.
- Two (2) cars and one (1) van are budgeted for Technology Operations for \$160,000.
